# Greetings from Valor of Bangladesh!

It is our absolute honor and privilege to bring you a one-of-a-kind event, "Interstellar." Although it will serve as an extension of "CXO Summit 2021", it will completely redefine the entire experience of networking and corporate succession. Our event will offer participants a unique off-site experience that will be equally intellectually stimulating and relaxing simultaneously. This exclusive program is designed specifically for CXOs to make the most out of an educational exodus while also enjoying a retreat's fun experience.

Apart from being a series of workshop sessions, it is also the ultimate networking experience for CXOs. It will function as a junction for exchanging ideas, visions, innovations, and strategies among some of the brightest future leaders of the nation.

"Interstellar" will be nothing short of a transformational and life-changing journey for those who will be lucky enough to join us in this endeavor. By the time the event draws to an end, participants will be equipped with the right mindset and conviction to take the final step into corporate excellence.

Thank you.

## OVERVIEW

**01** Outbound program with an enlightenment/entertainment combination
